

U.S. Responsibility

Eden Discusses Plans for Post-War Pacific Defence

By JOHN A. REICHMANN
Exclusive to The Edmonton Bulletin
Copyright, 1943, by Bruce Press

WASHINGTON, March 25.—Plans for post war defence of the Pacific—with the United States holding primary responsibility in that area—were said today to be among the subjects being discussed here by British foreign secretary Anthony Eden.

An informal Congressional source said arrangements would be made later whether nations with interests in the Pacific will agree on a formula giving each a share in the post-war security. A similar formula may be made for the Atlantic, he said.

As explained by one observer here, it is felt that it is impossible that Great Britain and its fleet would accept naval responsibility for the Mediterranean, the Indian Ocean and the South Seas, an area of 30 degrees west longitude—which runs west of India—but even if the American fleet had to defend all those areas, it would have primary responsibility for the rest of the Atlantic and all of the Pacific.

Hold in Absence

American plans for the Pacific are being held in abeyance pending the outcome of the Eden talks. It was said, but the subject has been frequently discussed by the Pacific war council, several members were said to be in agreement which would provide for a mutual defense system with all nations having access to all the bases of other members.

The council was also said to have discussed the Soviet Union's place in the plan. At least one member of the council was reported to believe that the Soviet Union should be consulted on any future Pacific planning although it has not considered a Pacific fleet.

The council is preoccupied from talking of future Pacific fleet arrangements, it was said, because it has been agreed that the U.S. and the U.K. should be consulted on any future Pacific planning although it has not considered a Pacific fleet.

The council is preoccupied from talking of future Pacific fleet arrangements, it was said, because it has been agreed that the U.S. and the U.K. should be consulted on any future Pacific planning although it has not considered a Pacific fleet.

To STRIP JAPAN

It is generally agreed that following the United Nations victory Japan will be stripped of her war-making islands, especially the main island of Honshu, which contains the great industrial centers of the country.

Leading Pacific powers are reported to recognize the primary interest in the Pacific and are ready to allow it to another power if the Japanese do not give up their claims. But there has been some fear expressed by smaller powers that the United States would insist that the islands belonging to them on which the United States has built naval and air bases should be annexed to America, although there is no intent to infringe on the sovereignty of any foreign power.

House Considers Alaska Highway As Official Name

WASHINGTON, March 25.—A committee of the House of Representatives introduced yesterday by delegate Diamond would officially name the new 1,600-mile road to Alaska the "Alaska Highway."

Since its completion the highway has been known as the "Talcan Highway," which recent reports credit to Diamond who made two trips last summer.

Although freights of the road runs through Canadian territory, a member of the Canadian government, George Bush, has assured Diamond Canadians would have no objection to the name "Alaska Highway."

Weather

Reported by the Weather Bureau, the following are the latest weather conditions:

THE FORECASTS

Alberta: Pacific cloudy and a little rain. High 50°. Low 35°. Peace River: Overcast with a few light showers. High 50°. Low 35°. Red Deer: Partly cloudy with a few light showers. High 50°. Low 35°. Moose Jaw: Partly cloudy with a few light showers. High 50°. Low 35°. Regina: Partly cloudy with a few light showers. High 50°. Low 35°. Edmonton: Partly cloudy with a few light showers. High 50°. Low 35°.

H. Sedgwick, in charge of the New York office, receives no salary but is paid a living allowance of \$2,000 and traveling expenses. He is president of the Standard Radio Co. of Toronto.

Daily War Map—Exclusively in The Edmonton Bulletin

BATTLING THE U-BOATS

With Churchill's announcement that submarine warfare comes first in all U.S. and British planes, Atlantic waves churn with increasing violence in battle against the U-boats armada. More and more enemy submarines sweep out of European lairs to attack United Nations supply lines, but Allied planes and warships patrol the seas to blast the subs and their bases.

Debate Is Expected

White Paper Blames Gandhi, Congress Party for Riots

By WILLIAM STEWART

LONDON, March 25—(CP)—A White paper blaming Mahatma K. Gandhi and the Indian Congress party for widespread disturbances in India was issued yesterday and was considered a preliminary step to a parliamentary debate on the situation.

The paper, issued by the Indian government and prepared by a committee since April, 1942, leading up to last summer's crisis, was published as an explanation and justification of the arrest of Gandhi and other Indian leaders.

It quotes Sir Edward Wood, minister of state for India, who said:

"That the decision had been made to bring the Indian situation under control, and to settle the financial and economic mechanics of the rationing plan remain to be settled."

Considering everything, meat rationing should become effective as soon as possible.

FIGHT TO FINISH

"The general character of the movement contemplated by Gandhi emerges clearly," he said. "It is a struggle to a finish in which foreign domination will be ended, cost what it may."

It declared the two basic motives of the Gandhi-led movement were to gain freedom from British control and to avoid at all costs India's entry into the Second World War between Britain and Japan.

The white paper quoted an anonymous leader from Madras as saying that strikes and agitation "should culminate in the supreme moment when the British would be driven off the civil disobedience movement."

It is significant, the white paper said, that the British disturbances took the most serious form also in the areas of the greatest concentration of the Indian population.

India still contains the centre of India's coal supplies, stoppage of which would have paralyzed the economy, but the British had to spend a great deal of time to find those parts of India which were most exposed to enemy attack."

The white paper was a subject of wide editorial comment which followed the most part two lines of thought.

The first, as put forward by the Manchester Guardian, was that the leaders were justified. "Gandhi's policy is unchanged," said the post. "The whole world is agreed upon him and any attempt to discredit him is futile."

However, a number of other newspaper suggested that the white paper, "skirted the real problem in that it did not mention the political settlement."

"In India as formerly in Ireland we cannot afford to be too leniently disposed to the demands of the right kind of 'folk' in my district," wrote one.

Another, however, serious offence that was punished," said the man. "He will have to talk, negotiate and construct a political settlement."

Florida produces 10 per cent of the Cypress lumber used for building purposes in the United States.

Tribute Paid Sir E. Beatty By Executive

TRAIL, B.C., March 25—(CP)—

Manufactured business activity of Trail's largest employer, who died Tuesday night at Montreal, was reflected yesterday in a statement by S. G. Blaylock, president and managing director of Consolidated Mining and Smelting Company of Canada, Limited, who identified Sir Edward as a man whose death would be regretted, cost what it may.

Mr. Blaylock's tribute follows: "This is perhaps the saddest blow that Trail has suffered since the beginning of the war. He was a man who had the courage to finance the Canadian war effort through the leanest period of the war and to provide the money necessary to develop the processes to treat the ore from the smelter and the plants now required for this work."

It declared the two basic motives of the Gandhi-led movement were to gain freedom from British control and to avoid at all costs India's entry into the Second World War between Britain and Japan.

The white paper quoted an anonymous leader from Madras as saying that strikes and agitation "should culminate in the supreme moment when the British would be driven off the civil disobedience movement."

It is significant, the white paper said, that the British disturbances took the most serious form also in the areas of the greatest concentration of the Indian population.

India still contains the centre of India's coal supplies, stoppage of which would have paralyzed the economy, but the British had to spend a great deal of time to find those parts of India which were most exposed to enemy attack."

The white paper was a subject of wide editorial comment which followed the most part two lines of thought.

Another, however, serious offence that was punished," said the man. "He will have to talk, negotiate and construct a political settlement."

Florida produces 10 per cent of the Cypress lumber used for building purposes in the United States.

Meat Rationing Is Expected to Start in May

OTTAWA, March 25—(CP)—

The house of commons accepted yesterday the senate version of a measure nullifying President Roosevelt's executive order on meat rationing on wartime salaries and substituting a modified ceiling fixed at 40 cents a pound.

The story continued: "That the decision had been made in both the finance and agriculture departments."

What remains to be settled is the financial mechanism of the ration plan remain to be settled."

Considering everything, meat rationing should become effective as soon as possible.

STUDY TWO METHODS

It was "not secret" the Journal was told, that for two months the prime board's food administration had been studying two alternative methods.

"Whether the present system, used in the United States, will be adopted by Canada or whether meat would be rationed on a 'monetary' basis developed up to a point where the price would be determined by what it would be determined by an experiment the board will conduct at once," Winnipedia MacDonald, executive vice-president of the board's food administration is setting the retail price of every individual cut from the grocery store.

If this proves successful, the board likely would ration meat by the price of the cut."

MEAT REALIZE MAGNITUDE

While it is probable that most Canadians will be shocked at the magnitude of the task, it is nevertheless true that the average man in occupied Canada has been up to Pounding and Chapel Hill, and a large number of others of national importance, most of them British American, have been concealed.

The representative of the Swiss government, repatriated from the Netherlands, has been asked to help the men of the Canadian government to realize the magnitude of the task.

Several attempts to induce the Japanese to take full advantage of the use of the Canadian food supply and the food supply was regularly received no reply, the report said, adding that the Japanese had been advised of the protection power to improve the conditions of the inmates.

IN LETTER TO CANADA

LONDON, March 25—(CP)—Baron Harcourt, the English peer, who was on a charge he recorded in a Canadian letter information handed to him by the Canadian government, said Baron Harcourt had realized this view would be taken by the authorities he would not have written the letter.

NO TEMPORARY RELIEF FOR ME. I'VE SAID GOOD-BYE TO CONSTIPATION!

No Survivors

Fast-Striking U.S. Sub Sinks Japanese U-Boat

WASHINGTON, March 25—(AP)—An American submarine surprised, torpedoed and sank a Japanese submarine in the far Pacific so quickly that the Japanese "never knew what hit them," the navy department disclosed yesterday in telling the story of an undersea boat commanded by Lt. Cmdr. William Edward Ferrall of Pittsburgh.

Ferrall's craft in a year at sea destroyed 11 Japanese ships carrying more than 50,000 tons, including the enemy sub. Navy com-unique previously had announced that the ship had cargo vessels and two transport ships.

The cargo ships were described as being captured Japanese armament in the south Pacific region and the two transports were carrying reinforcements. The Japanese sub, which resulted from the sinking of the transports may have been heavily damaged, but no account made no estimate.

PRISE SINKING

Of all the operations of Ferrall's crew, the destruction of the Japanese sub was the most striking, the navy said.

"We came upon the Japanese submarine when we were surprised and our crew was taken aback," said as saying, "They were on the surface near their base, and they never knew what hit them." The sub, which had been damaged, rapidly stern stern down. They never knew what hit them."

This successful attack raised to exactly 200 the number of Japanese ships which have been sunk by American undersea raiders. The total includes 129 sunk, 50 probably sunk and 38 damaged.

YARMOUTH, N.S., March 25—

An explosion that followed the arrival of a plane at the Yarmouth airport yesterday killed six airmen and injured three others, and also injured a woman who was at the scene of the accident.

Names of the dead airmen were not available, but officials here said the plane went down last night.

ARMENIAN KILLED

FO. Charles Leroy Tripp, Mont Royal, died yesterday. Sgt. Alexander John Ballie, Riverdale, died yesterday. Sgt. Trevor Edward Weston, 20, of New Westminster, B.C. Flt. Sgt. Robert Franklin Cavers, Almonte, Ontario, died yesterday. Flt. Sgt. Leo Alexander McDonald, 21, of Kinston, N.B. A.C. Konstantin Balashoff, 21, of Woodstock, Ont., died yesterday.

The plane crashed en route to the Yarmouth airfield to bring the four crew members to the aid of the four crew members of a plane downed over the ocean.

The plane exploded on impact, killing the four crew members and injuring the others. It is believed the four in the plane were killed in the impact of the plane nose down and crashed.

WOMAN IN HOSPITAL

Mrs. William H. Lent of Tusket, N.S., is in hospital with a cerebral hemorrhage. She was admitted to the hospital on Saturday after the explosion. Her condition was described as critical. Lent's physician said she had a hemorrhage resulting from sheer strain induced by high blood pressure.

Chicago Auctions Horses by Mail

CHICAGO, March 25—(AP)—Public auction in connection with the March social security report is not expected to exceed \$45,000, said a reply yesterday in the report. The sale will be shipped, charges will be waived, and the animal is not represented the seller will pay the cost of rearing.

BUT NO BANANAS

LONDON, March 25—(P)—Due to the fact that there have been no industries experiments now take place with banana trees. The plant will receive only out-of-pocket expenses and others will get a fee, from West Indies.

Dr. Leonard C. March author of the report, receives \$4,000 a year and adviser to the Advisory Committee on Social Security.

Like the "winning a letter," keeping it out in front of the others takes an extra something. Coca-Cola has a taste, a quality, in quality is refinement.

The finished art that comes from 52 years of practice goes into the making of Coca-Cola.

A special blend of flavor essences merges all the ingredients of Coca-Cola into a unique, original taste of its own.

There are many ways to refresh yourself, but Coca-Cola brings true refreshment.

It's natural for popular names to acquire friendly abbreviations. That's what happened to Coca-Cola. Both mean the same thing—a comfortable source and well known to the consumer.

While war, there has Coca-Cola for refreshment. It may not be the best drink in the world, but it's the best when you're thirsty.

With war, there has Coca-Cola for refreshment. It may not be the best drink in the world, but it's the best when you're thirsty.

**The Bulletin's
SPORT SHOW**
by Hal Dean
SPORTS EDITOR

ACCOMPANIED by Coach Bob Gillies and Manager Ken Henry, as well as other club officials, Canadian Athletic Club juniors left last night for Saskatoon, where the first of the Memorial Cup games with Quakers of that city is scheduled for Saturday night.

As was anticipated, Earl Chisholm did not accompany the team and it is highly improbable that he will be able to take part in any of the games. He is playing at Midland, Ont., last fall and has been attending Eddie Shore's hockey school in the same town. The two Canadians were due to meet again Saturday night.

Players in the party included Ken Cox, Bill Lancaster, Glen Gray, Fannie Young, Jim Fleming, Vic Kury, Frank Baer, Jack Tennant, Fred Pomeroy and Peter Morgan. Johnnie McIninch, trainer, is on course also with the team.

LANCASTER TO BUFFALO?

IT is understood that Buffalo is very anxious to have Lancaster, smart young goals of the Canadians who work in the city this season for the Alberta-Brilliant Colours, remain here. A little doubt still exists, however, in addition to which there will be a preliminary game each evening.

Sixteen high school champions from the area will be here tomorrow for an exhibition against a picked team from the city. The games will be played at Weingarten gym and the boys should be well worth watching.

Lancaster was a very important cog in the campaign of the Canadians, which resulted in their securing the Memorial Cup semi-finals and their work in the series which starts at Saskatoon on Saturday will cer-

tainly be followed with interest by Edmonton fans.

It is also reported that Ken Cox, flashy centre who led the junior league in scoring for the second year in a row, has signed with the Quakers of that city.

Players in the party included Ken Cox, Bill Lancaster, Glen Gray,

Fannie Young, Jim Fleming, Vic Kury, Frank Baer, Jack Tennant, Fred Pomeroy and Peter Morgan.

Johnnie McIninch, trainer, is on course also with the team.

BIG HOOP PROGRAM

THEIR will be plenty of action to keep the spectators interested for the balance of this week, with games bullet for each of the three days.

Biggest attraction of course will be the provincial final between Raymond Union Jacks and the Alberta-Brilliant Colours. Total point series will be at the Arena tonight, with the second semi-final to follow Friday. In addition to which there will be a preliminary game each evening.

Sixteen high school champions from the area will be here tomorrow for an exhibition against a picked team from the city. The games will be played at Weingarten gym and the boys should be well worth watching.

Outstanding star of the night was Mitchell in the Regina goal. With Bombers dominating the play, he had to go to work to put out but less than 50 shots in the first three periods many of them from the outside.

As the third period got under way, Captain broke away from the Regina defense. The Art Cooper free, the first to break the tie, put him in the lead. Harry Morris, number seven, juked the shot and L. Krueger, number 10, was there just outside the crease to fire the opening goal of the game at 2:14.

It was a good start, but the Bombers would take the game with the one goal but at the 15:39 mark. Platner converted a pass from AC-2 Joe Krueger to give the visitors a 10-9 lead. Then, after a 10-second rest after being struck in the groin by a shot late in the second period,

Gordon Bell, 18-year-old goalie who had blanched every team he faced during his regular season, rucked up his 10th shutout of the campaign.

Although he was off the ice for a 10-second rest after being struck in the groin by a shot late in the second period,

he was back in the net and scored three goals as the local team broke the Manitoba and Alberta records.

Both the others had been beaten as several other players took to the ice. Several made emergency exits off the ice and change after the final buzzer.

The teams will resume their best-of-seven series Sunday in Hershey.

**American League
Ball Teams Lose
Heaviest Hitters**

CARD SHARING, Mo., March 25.—(AP)—Military service has played no favorites with the two top three teams in the American League. Both Cardinals and Tigers, while the others were split among the four, have been the heaviest-hitting outliers from each of them without discriminating.

The New York Yankees must find replacements for Phil Rizzuto, Joe DiMaggio, Don Newcombe and Eddie Stanky. Ted Williams and St. Louis Browns for Vernon Stephens and Wally Moon.

It's hard to say which has the more difficult problems. But what managers do know is that the Yankees for control of the pennant are in the worst of the situations, if much concern down here at the moment is any indication.

Manager Luke Sewell has plenty of his own troubles.

HAD STRONG PENNANT HOPES

The Browns, after an enterprising performance, have now lost 200 consecutive games. They have been induced into the arms and Stephen, second to the last year, was reclassified 1A. He has not reported at camp and pre-military service has been delayed, causing the captain to drop him.

Stephen's absence presents as opportunity for Mark Christman to make a strong bid for the title with Detroit Tigers but spent the past three seasons with Toledo Reds. The Indians, however, are his home team. Last year, Miller and most of the others were with the Cardinals.

Third baseman Herman Clegg will not report and Sewell has been forced to travel along with the team to the West Coast. He will be assigned to the remainder of the season.

Two small players, however, will be located on each side of the business, will be open as usual.

Yankees players welcomed the news as though it were a long time ago. It has been a long time since they have been accommodated and also to familiarize themselves with the new uniforms. They should not come to carry some harm, considering that they had five winning games with Calgary R.F.A. Football in the Alberta tourney.

**Western Army
Teams Resume at
Calgary Tonight**

CALGARY, March 25.—(CP)—Second game of the interprovincial Allan Cup elimination series, postponed Tuesday night because of the severity of smoke following a small plane crash, will be played at the Arena kitchen, will be played Thursday night, between Calgary Army and the Alberta-Brilliant Colours, champions of Alberta and British Columbia. Thirty electricians were cleared to operate the smoke detector system and both clubs held workouts this afternoon.

Balance section of the Arena, containing about 400 seats, will close to the fans, but there will still be accommodation for close to 3,000 spectators. The smoke detectors have been removed and the gas stoves, used in cafeteria, will be ignited for the remainder of the season.

Two small players, however, will be located on each side of the business, will be open as usual.

Yankees players welcomed the news as though it were a long time ago. It has been a long time since they have been accommodated and also to familiarize themselves with the new uniforms. They should not come to carry some harm, considering that they had five winning games with Calgary R.F.A. Football in the Alberta tourney.

**St. Andrew's Lead
Toba Hoop Final**

WINNIPEG, March 25.—(CP)—Winnipeg St. Andrew's, perennial Manitoba basketball champions defeated the Victoria, B.C., team last night in the first of a best-of-three provincial championship series. The game will be played next Monday night.

Jack Carmichael, veteran St. Andrew's player, got 18 points for the winners.

Missed Signal

FRANKLICK, Ind., March 25.—(AP)—Pitching isn't any problem of Chicago's Cubs who have 16 hits in their last 10 games. Eddie Kaves is home. He is stride into camp Tuesday night professing to be away of the result that sent him to Minnesota. The game will be played next Monday night.

Jack Carmichael, veteran St. Andrew's player, got 18 points for the winners.

Tobacco Capital

ALBANA, Ind., March 25.—(AP)—The City of Albany, Indiana, tobacco capital, will be the site of the 1945 International cigarette contest Sunday.

The Browns' battery prospects are the brightest thing about the team. Sewell has an adequate catch, but the right fielder, Mike Boudreau, is the only one who may be able to win consistently with each club.

A single game will be played the following night. The two day post-gentlemen will play off for the league title.

The Browns' outfit, which has now won the league title for the past two years, is the best in the country.

Girls' Basketball

THE CITY Girls' Basketball team, which has won the Indiana state title for the past two years, will be the site of the 1945 International cigarette contest Sunday.

The Browns' battery prospects are the brightest thing about the team. Sewell has an adequate catch, but the right fielder, Mike Boudreau, is the only one who may be able to win consistently with each club.

A single game will be played the following night. The two day post-gentlemen will play off for the league title.

The Browns' outfit, which has now won the league title for the past two years, is the best in the country.

Minora Cigarette Papers

FRANKLICK, Ind., March 25.—(AP)—Pitching isn't any problem of Chicago's Cubs who have 16 hits in their last 10 games. Eddie Kaves is home. He is stride into camp Tuesday night professing to be away of the result that sent him to Minnesota. The game will be played next Monday night.

Jack Carmichael, veteran St. Andrew's player, got 18 points for the winners.

Albana and the Dodecanese Islands are the last remains of Italy's overseas empire

R.C.A.F. Club Takes First of Western Semi-Finals in Overtime

Winnipeg Airmen Beat Regina Caps 5-1

Army Goalie Gives Stellar Performance

WINNIPEG, March 25.—(CP)—Winnipeg, R.C.A.F. Bombers scored four overtime goals here last night to defeat Regina, Army Capitals to score the first game of a best-of-five series for the right to enter the western senior hockey final in Allan cup play-offs.

Second game will be played here Saturday night and the third in Regina Monday. If any further games are necessary, they will be played in the Saschewan capital.

Both teams failed to score in the first two periods. Regina scored first in the third game, but right to enter the western senior hockey final in Allan cup play-offs.

Legislature Asked to Protest Ban on Canadian Labor

Cancellation of Order, Equitable Salary Rates Requested in Resolution

Notice of a resolution has been given by N. B. James, Social Credit, Edmonton, which will discuss in the legislature recently-announced Dominion government ban on the employment of Canadian labor by American contractors in this area.

The resolution, if adopted by the legislature, will ask the Ottawa authorities to cancel the order. It will be seconded by H. E. DeBolt, Social Credit, Spirit River.

The resolution further asks that in respect of American projects undertaken in Canada, the principle of equal pay for equal work should be established.

TERMS OF EXECUTION

The complete resolution follows:

Whereas, the Dominion department of labor, through its National Selective Service department, has, by blanket order, prohibited the employment of Canadian workers by United States firms engaged in certain projects in Canada of vital importance to the defense of Alaska and the Canadian west;

Whereas, the said order is unwise and discriminatory against Canadian workers in that it prohibits the employment of Canadian workers of vital importance to Canada irrespective of whether or not the services required are of an essential nature to the defense of Canada; and

Whereas, it is resolved that this legislative assembly request the Dominion government to cancel the National Selective Service order for the following reasons:

GIVE FIVE REASONS

It is necessary in that National Selective Service order that power be refused permission in individual cases where the worker's services are more urgently required in the present emergency than those of other Canadian project workers.

It is injurious to the harmonious relationship between Canadian and United States workers, and definitely detrimental to the Canadian economy.

It constitutes an unacceptable discrimination against Canadian workers.

It interferes with the selection of necessary workers for projects which are of vital importance to the defense of western Canada.

EQUAL WAGE RATES

And it is further resolved that the agreements and arrangements made between the Dominion and the states of both the local committees and the general public to make it successful.

Dr. MacGillum held a meeting of the Alberta War Finance Committee at his residence in Edmonton, which was attended by members of the Edmonton Committee. Friday, he will hold a series of meetings in the various districts.

Last week he toured Saskatchewan interviewing committee members in the different centres.

Cancel Contracts For Surface Work On Alaska Road

Several contracts calling for surface work on the Alaska highway have been canceled. J. S. Bright, United States roads director official said yesterday.

Men recently hired in the United States for work on the road have been sent to Canada to remain there until conditions on the Alaska highway are suitable for surfacing. Mr. Bright said.

THE ANSWERS

HAROLD L. WATSON, returned soldier: I think there is a very serious danger of the Japanese making an attack on the Pacific coast. We must be prepared for such a tried, experienced, capable and bold soldier as General MacArthur to be used, and that proper preparations will be made.

JOHN DAVISON, clerk: A Japanese attack on the Pacific coast is to be expected. We must contemplate and for which we must be prepared. It is significant that the Reserve is taking such a decided interest in driving for recruits at this time.

GORDON HUTCHINS, truck driver: Mr. G. Peakes knows his job well. He has been here again and again, and when he says such an attack is to be expected, I believe him.

MILITARY ORDERS

CALENDAR
Royal Victoria Ladies' Cutting Club annual meeting in the canteen on Friday at 2 p.m.

Dance TONIGHT

Ladies Must Be Accompanied by Gentleman Escort

Convocation

The Rev. Dr. A. S. Tuttle, M.A., LL.D., former Moderator of the Church of the Brethren and Principal of St. Stephen's College, who will be the guest at the Convocation of the University of Alberta. The convocation is being held on Tuesday, May 10, to permit the C.O.T.C. and University Air Training Corps to be present after attending their annual camp from May 2 to 16.

Little Theatre Successful in Snappy Comedy

Received with enthusiasm by an audience, filling the main auditorium of the Masonic Temple Wednesday evening, the opening performance of the Edmonton Little Theatre's first winter season of comedy, was a success. Under the direction of Miss Alice Fitzgerald, as stated by Mrs. G. Birckbush, producer, showed evidence of careful preparation and action of the play, which included a good deal of suspense and full of amusing incidents.

The three-act farce was written by James Montgomery, and had brilliant outstanding international success.

The players were the most promising situations arising out of the play was Bob Bennett, played by Jack Univin, to tell the truth, a bit of a bore, but still a fine hour.

Playing opposite Mr. Univin was Merle Chrystie, and it was then two players who combined to give the play a good performance.

Particular mention should be made of Bishop Doran, Villainous character roles of Jack Dixon, played by Dick Connolly and Clarence Van Dusen.

George Cook, with a good working knowledge of the play, was convincing and in keeping with the theme throughout.

STRONG SUPPORT

Offering strong support were Freda G. Smith, Mrs. R. M. Ralston, and Ada Bradley as Sable.

Supporting players included Justice Green, Mrs. Delano, Mrs. Maureen Dawson and Mrs. G. Grabin.

Included on the production staff were stage effects, Jack Ursin, George Cook, Paul Greenwood and R. B. Clinton; lighting, Mr. Univin; makeup, Faith Clinton; costumes, Shelly Stevens; properties, George Day and publicity, Mrs. Christine Day.

Schoolboy Sues: Was Hurt at Play

Alleging that responsibility rested with the Edmonton Public School Board because no teacher or other person in authority was present during a play period at Alexander Taylor school when 8-year-old Edward Kelly, 10, suffered a fractured leg and received medical treatment, a schoolboy has filed a suit against the board.

It is alleged that the Reserve school is making such a strenuous effort to keep students in the classroom during recess.

It was also alleged that the plaintiff was not able to get a bus to go home because it had been delayed in this room during a play period.

According to the statement of claim the infant plaintiff was thrown to the cement floor by the playground equipment, and received a broken leg in the scuffle.

P.O. Alex Markle Prisoner Italian Camp Bordering Shores of Adriatic Sea

Shot down behind enemy lines in Libya while assisting in the advance of the British 8th Army, P.O. Alex Markle, R.C.A.F. son of Mr. and Mrs. John Markle of Camrose, and grandson of Mrs. Alexander Gilmour, 10023 106 street is a prisoner-of-war at Bare, Italy, according to information reaching his parents. Previously he was reported as missing. Bare is on the Adriatic Sea, near the heel of the Italian boot.

In Enemy Hands

P.O. Alex Markle, R.C.A.F., son of Mr. and Mrs. John Markle of Camrose, has been a prisoner-of-war, after having been reported previously as missing.

Speed-Up Plan Is Blamed For Mine Mishaps

One of the main causes of increased rate of accidents in coal mines is the "speed-up system" now in vogue, Gordon E. Taylor, Social Credit member of the legislature Wednesday afternoon. Mr. Taylor was making reference to statements made before the Legislative Committee of the House by the coal mine operators of the province, on the bill amending the Workmen's Compensation Act, now before the house.

SAID DEPLORABLE

"It was deplored before the agriculture committee that Mr. Taylor said," said Mr. Taylor, "that our committee (a sub-committee of the social legislative committee) in examining the bill on compensation, had recommended that the speed-up system be retained in the bill amending the Workmen's Compensation Act."

The bill was reported from the agricultural committee by Fred Annesley of Wetaskiwin, Calgary, and now goes before committee of the whole house.

Mr. Taylor quoted figures of accidents in individual mines in the years 1941 and 1942, some of which set new records. In 1941 there were 210 cases, each costing \$25, 67, 85, 112, 56, 117. These figures, the Druebel report said, were not compiled by the compensation board.

"If the operators had used more money and thought of their workers and on safety measures, they would not have to deplore increased cost of workmen's compensation," Mr. Taylor said.

"No industry has the right to take life or limb from a man with not adequately paying for it," said Mr. Taylor.

The social credit member of Grande Prairie, said he thought there were just as many accidents in the coal mines as there were in the coal mines.

SUPPORTS PRINCIPLE

Elmer E. Roper, C.C.F. Edmonton, said he would support the principle of the bill.

Giving a short summary of rate increases under the Compensation Act in the past year, Mr. Roper said, "there was a single case on record where an industry in the province had failed as a result of increased compensation levies."

"When industry claims it is bearing too high costs for its personnel, it is compelled to ever looking the fact that the worker contributes at least one-third of his pay in terms of the compensation due to industry. No employer has the right to say industry will bear the extra cost of compensation," Mr. Roper told the house.

Mr. Anderson, closing the debate, said every argument presented before the agricultural committee was an old story.

B.C. to Organize Women's Land Army For Harvest Work

KELOWNA, B.C., March 25—(CP)—British Columbia's urban women will be organized into a land army to assist in harvesting crops this summer, the Hon. K. C. Macdonald, provincial agricultural minister, announced here yesterday.

MacDonald told the meeting called to discuss the farm labor shortage in the Okanagan Valley that the organization of a land army function only when every possible available source of labor in the locality had been exhausted.

The organization of a district only when a standard condition of having accommodations can be met.

The women's land army is being formed under a joint provincial-federal plan.

This is the first information received direct from him since he was shot down and captured in Libya. He had been wounded after bombing El Alamein, but had recovered sufficiently recently to rejoin his squadron after recovering from his wound when he was brought down in flying along the Sidi Barrini highway.

P.O. Markle is born in this city Oct. 16, 1918, and now is 24 years old.

He received his schooling at Vermilion and Camrose, obtaining his Grade 12 certificate in the latter city. At school he was interested in cadets and army training.

For three years he was a member of the Canadian Canadian.

ENLISTED IN 1940

He enlisted in the R.C.A.F. in February, 1940. His training was completed at the basic course and duty at North Battleford, I.T.S. at Regina, elementary flying in the North. He spent flying in the Sask. As he was decorated with wings from the last mentioned unit.

In Oct. 1941, he went overseas and received training in England in flying Spitfires and Hurricanes. After completion of his training he went first to Nigeria and then flew across to Cairo. He was at such places as Tripoli, Tobruk, Alexandria, and other places of outstanding interest and significance.

He spent all his time combat in the North African theater as a fighter pilot flying Kitty Hawks, with an Australian squad.

Returning from bombing El Alamein in August, 1942, he was sent to Sicily and spent hospital days at Sicily.

STRAFED ROMMEL

Back with his Aussie comrades he took part in the strafing of Rommel's tanks at El Alamein. He participated in the fierce fighting along the Sidi Barrini road was shot down. In the crash he was severely injured and he died in salary when they had gained experience. Mr. MacLachlan stated.

FOR WORKERS' COMPENSATION PLAN

The situation the situation would be dealt with in a better manner, if the workers were paid a cost of living bonus, rather than a salary.

The payment of the increased salaries must be taken into account. Mr. MacLachlan said.

INCLUDES SUBSIDIES

The fund, he said, would be available to the government, which would be made of the ability of the people to pay them. Average income of farmers in the west today was \$600.

New salary schedules have already been arranged in many school districts in Tommy, Saskatchewan, and in the North West Territories. He said he would like to see the minimum raised to \$250.

On a bill to amend the Industrial Compensation Act, Hon. D. J. Walker, Independent, Banff, introduced the bill, said there was no protection provided for the employee in the bill, with the exception of the miners.

Employers should have the same right as employers in calling meetings to the approval of the lieutenant-governor-in-council, may be sold when funds are required for purposes outlined in the act.

RIGHT TO CALL UP

A bill to amend the Water Resources Act, introduced by Hon. D. B. MacMillan, minister of agriculture, caused a brief hush when it came up for consideration by committee.

The section of the bill which would extend the ten day water rationing period to all areas of the province was criticized by James Hartley, Social Credit, Macleod, who said it would work most unfairly on the small farmer.

He introduced an amendment which would have struck out the section, but it was defeated, 20 to 16, again.

MacMillan, replying to the objections, said this particular measure was the result of the Dallas, Texas, water supply accompaniment. A community long was an enjoyable item.

The bill, he said, had been heard to support; they introduced on the basis that two worms made a recent increase in the price of eggs.

Grant Allowances To Children Under 16 Years of Age

Payment of grant allowances to persons under 16 years of age, overlooking the fact that the worker contributes at least one-third of his pay in terms of the compensation, is safe, he was told.

Mr. Anderson, closing the debate, said every argument presented before the agricultural committee was an old story.

La Presti Safe

HIBERNIA, Man., March 25—(CP)—Frank Keller, rookie outfielder brought up by Cincinnati Reds in midseason last year, and his wife, the camp. Black Hawk, goalie, reported missing in action, is safe, his wife was notified yesterday by the United States Consulate here. Her son soon will communicate with her the way advised. No further details were immediately available.

New Slugger

BLOOMINGTON, Ill., March 25—(AP)—Frank Keller, rookie outfielder brought up by Cincinnati Reds in midseason last year, and his wife, the camp. Black Hawk, goalie, reported missing in action, is safe, his wife was notified yesterday by the United States Consulate here. Her son soon will communicate with her the way advised. No further details were immediately available.

NO PROVISION MADE

No expenditure was involved, and no provision was made in the budget for the payment of the amount.

Goat, kid, shark, snake, kangaroo and many other skins are being increasingly used as uppers for women's shoes.

Several thousands of dollars had

Wartime Prices Board Officials

R. BRUCE HALL

Two well-known Edmonton and district barristers have been appointed officials of the Wartime Prices and Trade Board. R. Bruce Hall of Innisfail has been appointed to the Board's enforcement council for the Alberta region, and the Rev. Elmer L. Logan has been appointed assistant enforcement officer for the same area.

ELMER L. LOGAN

Mr. Hall, a former member of the Edmonton Bar, has been appointed to the Board's enforcement council for the Alberta region, and the Rev. Elmer L. Logan has been appointed assistant enforcement officer for the same area.
